---

## PROFESSIONAL SUMMARY

Final-year B.Tech Cyber Security student with hands-on internship experience in SOC monitoring, log analysis, and incident triage. Practical exposure to cloud security (Azure Sentinel, Microsoft Defender for Office 365, Microsoft Entra ID) and endpoint security (CrowdStrike EDR, phishing analysis, vulnerability assessment). Microsoft Azure Fundamentals (AZ-900) certified and completed the Google Cybersecurity Professional Certificate. Seeking an SOC L1 Analyst role to apply strong fundamentals in threat monitoring, alert triage, and incident response.

---

## EXPERIENCE

### Cloud Infrastructure & Security Intern

Jun 2025 – Aug 2025

*Celebal Technologies, Jaipur*

- Supported configuration and monitoring of Azure Sentinel for centralized log ingestion, alerting, and security event correlation across cloud workloads.
- Administered Microsoft Defender for Office 365, Multi-Factor Authentication (MFA), and Conditional Access policies, strengthening email and identity security posture for the organization.
- Gained hands-on exposure to Microsoft Entra ID and Microsoft 365 security administration fundamentals through daily configuration and troubleshooting tasks.

### Cyber Security Intern

Jun 2024 – Jul 2024

*Eximius Tech Innovations Pvt. Ltd.*

- Analyzed reported phishing emails and investigated CrowdStrike EDR alerts/tickets to identify indicators of compromise (IOCs) and contain suspicious activity.
- Performed vulnerability assessments and network scanning across internal assets to identify security gaps and support remediation recommendations.

---

## SOC TRAINING & HANDS-ON LAB EXPERIENCE

### SOC Analyst Training Program

Apr 2026 – Present

*SIEM XPERT*

*Structured, instructor-led SOC training program with lab access on enterprise tools.*

- Practicing real-time SOC alert monitoring and triage in a simulated SIEM environment using Splunk Enterprise and Microsoft Sentinel, classifying true positives, false positives, and benign activity.
- Performing log analysis, event correlation, and incident documentation across endpoint and network sources in line with standard SOC escalation procedures.

---

## PROJECTS

### KubeGuard — Kubernetes Security Assessment Tool | [kube-guard.dev](https://kube-guard.dev)

- Built a Kubernetes manifest scanner (Python, PyYAML) that evaluates multi-document manifests against CIS Kubernetes Benchmark, NSA, and CISA hardening guidelines to flag privileged containers, host namespace sharing, root escalation, and missing resource limits.
- Integrated MongoDB for scan history logging and built on-demand PDF vulnerability assessment reporting for end users.

---

## EDUCATION

### Bachelor of Technology – Computer Science & Engineering (Cyber Security)

2023 – 2027

Sobhasaria Group of Institutions, Sikar (BTU) | CGPA: 7.98 / 10.0

### Higher Secondary (PCM)

2023

Gyandev Public School, Sikar (RBSE) | Percentage: 85.20%

## SKILLS

---

**Technical:** SOC Monitoring, Incident Triage & Escalation, Log Analysis, Threat Detection, SIEM Fundamentals, Endpoint Detection & Response (EDR), Vulnerability Assessment, Network Scanning, Cloud Security (Azure), Identity & Access Management (IAM)

**Tools:** Splunk, Microsoft Sentinel, CrowdStrike EDR, Microsoft Defender for Office 365, Microsoft Entra ID, Microsoft 365 Security, Wireshark, Nmap, Linux, Windows Server

## CERTIFICATIONS

---

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Google Cybersecurity Professional Certificate
- Certified Ethical Hacker (CEH) —actively pursuing

**Languages:** English | Hindi
